

# Mobility: The ABC of BA & BB

**B**etter **A**ccess for **B**lack **B**erry

# Implementing Mobility

## 12 Years of Best Practice

### ◎ Consider Open-Source

The financial crisis is forcing companies to work more efficient with tools made available with less IT budget.

### ◎ Real Security Concern

Mobilising your workforce and making information mobile accessible creates a serious security threat!

### ◎ Single Point of Contact?

Mobility projects require a variety of parties to work together to deliver a supported solution, now and in the future.

# Mobility Solutions

## What BA does for you?

### **Mobile Workforce Solutions**

Company mobile communications solutions based on open source software and security best practices

### **Business Mobile Strategies**

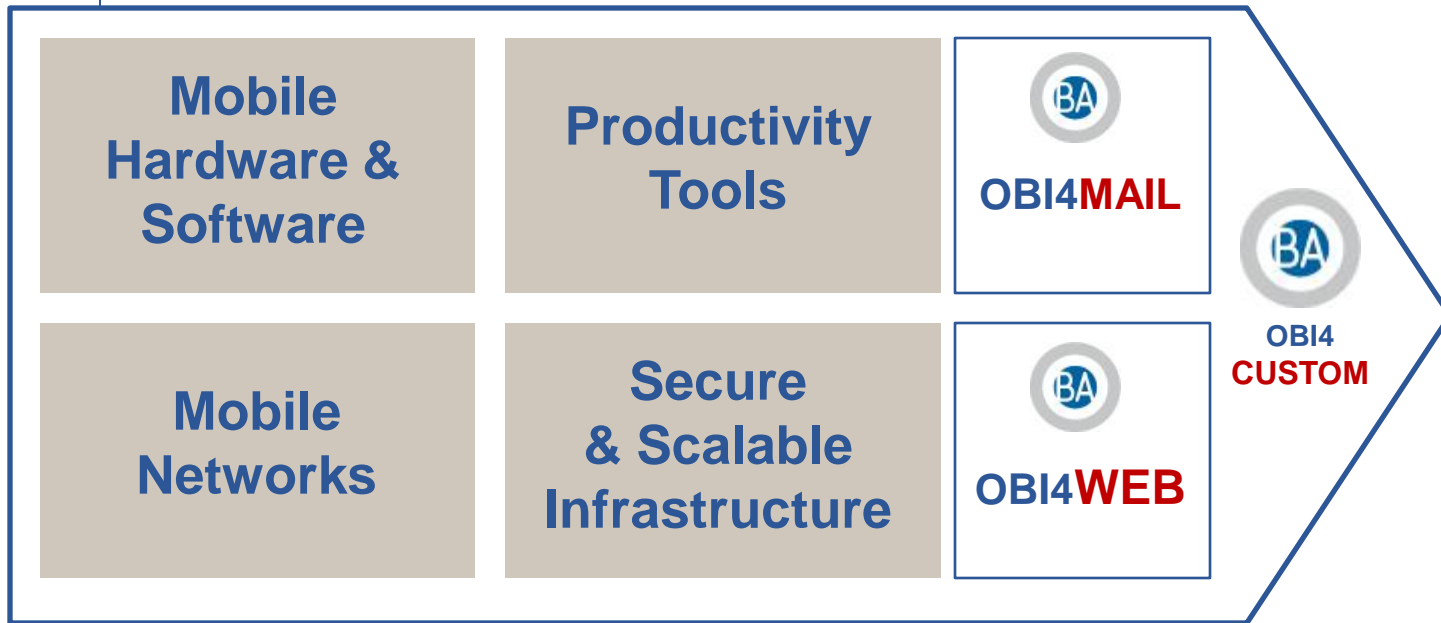

Discovery, proof of concept, readiness assessment, end-to-end implementation of mobile services

### **Open BlackBerry Integration**

BA is Research in Motion's (RIM) exclusive partner for wireless enterprise information integration projects

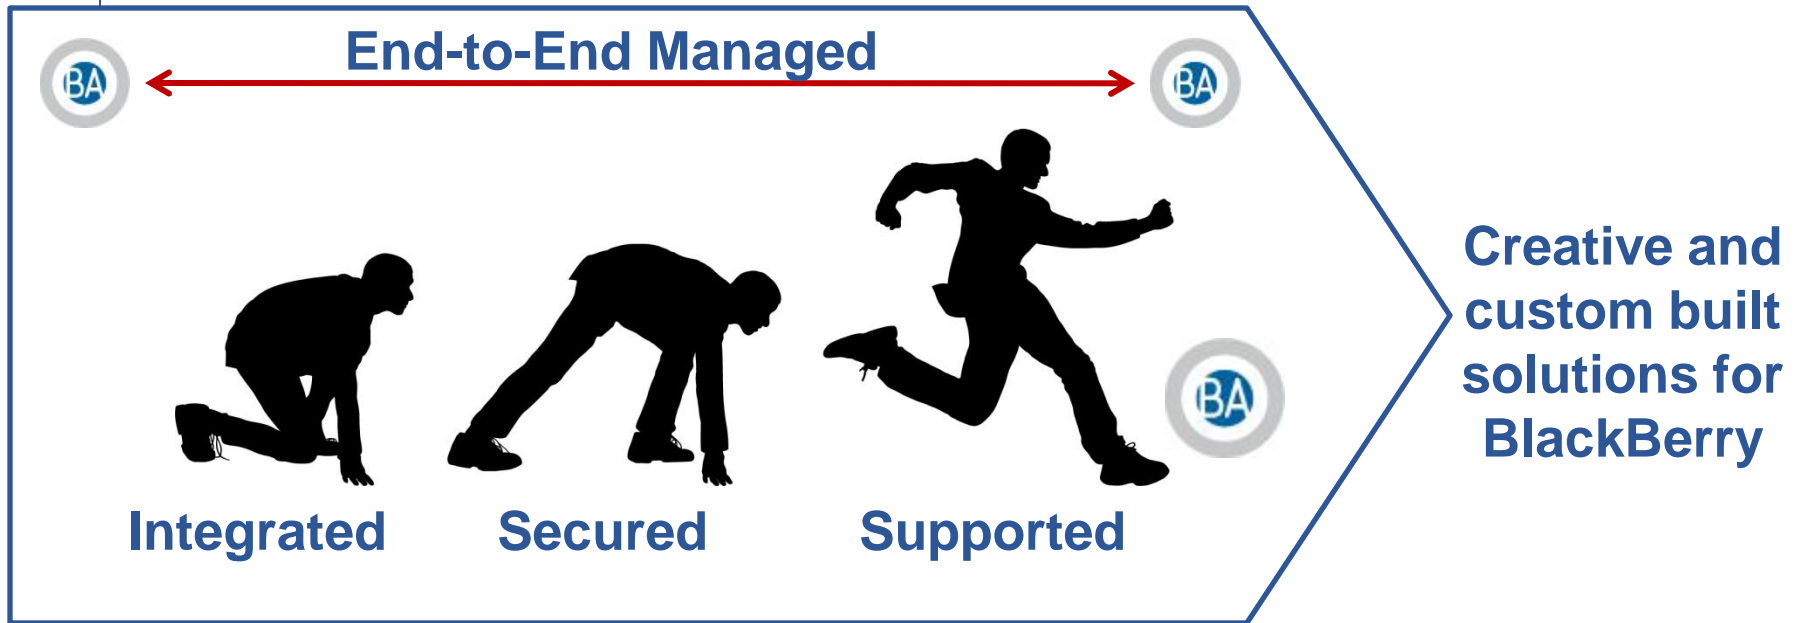

# Product Solutions

## Open BlackBerry Integration

# Product Solutions

## Open BlackBerry Integration

# BA and BB together

## What BB does for you?

### **OBI4MAIL**

Mail and calendaring integration for open source messaging solutions and all other mail platforms.

### **OBI4WEB**

Enabling secure and single sign-on access to business information and intranet applications on your BlackBerry.

### **OBI4CUSTOM**

Custom built applications for your BlackBerry which are directly and securely integrated with your back-office.

# Thank You
